Welcome

Thank you for purchasing a new Simmons® mattress. Your mattress is designed and manufactured to provide you with high quality sleep for many years into the future.

Usage Instructions

Warning:

- Not following the below guidelines for supporting your new mattress may result in damage that will void your warranty.
- Using the mattress with a support system that includes a foundation ("box spring"):
- Use a new foundation, or a supportive, rigid, non-yielding foundation; your old foundation may not provide enough support for new products.
- Metal Frames: For any full size or larger metal frame beneath your foundation, use a frame that provides rigid center support with leg(s) that extends to the floor, as well as support for the head, foot, and sides.
- Wooden/Platform Frames: For any full size or larger frame that does not have a metal center support, you must use at least five (5) 1" x 4" hardwood or metal slats and add leg supports that extend to the floor below the center of the three (3) center slats

- Using the mattress with a support system without a foundation (e.g. with a platform bed):

- Support systems with slats spaced LESS than 2" apart must include a head-to-foot lengthwise center support with at least one centrally-located leg that extends to the floor
- Support systems with slats spaced MORE than 2" apart must include a solid wooden, plastic, or similarly rigid surface between the mattress and slats to bridge the spaces, and a head-to-foot lengthwise center support with at least one centrally-located leg that extends to the floor

- Any support system that does not fit within the above descriptions must at minimum provide a rigid platform with adequately distributed supports extending to the floor. Determination of whether a support system is adequate is at the sole discretion of Serta Simmons Bedding.
- The use of any platform that lacks support as outlined above may result in damage to your mattress that will void your warranty.
- For all adjustable foundations, please see the owner's manual for required safety, support, and warranty coverage.

Mattress Care:

- If you need to move your mattress, carton or bag it and carry it on its side to avoid damage. Handles are provided to assist in positioning the mattress on the foundation. Using the handles to carry the mattress may tear the fabric. If you store the mattress, it must be laid flat to avoid shifting of the comfort layers.
- Do not fold, stand or jump on product as damage can occur.
- Do not use cleaning fluids or any type of fabric protection application on your mattress; it may damage some of the materials. The only acceptable spot cleaning method is to apply baking soda to the soiled area, let stand about 15 minutes, vacuum, and repeat as needed. Air the product out as much as possible.
- DO NOT remove the mattress cover, even if it has a zipper. If the mattress cover is removed, the warranty is voided.
- Do not remove or discard the white law labels or the model name label. These labels serve as a means of identification to establish your warranty rights. If you choose to remove the labels, keep them in a safe place.
- Let your new sleep set “air” as long as possible upon removal from its plastic packaging.
- DO NOT SMOKE IN BED OR USE OPEN FLAMES (e.g. candles, lighters, matches) ON OR NEAR YOUR BED. Although your new mattress meets the requirements of the Federal Flammability Standard, 16 CFR 1633, when it is used alone or with the foundation(s) specified on the 16 CFR 1633 law tag attached to your mattress, it is not fire-proof. In addition, sheets, blankets and other bedding can ignite and burn rapidly when exposed to open flames.

Limited Warranty Coverage:

- Your Simmons® mattress used with proper support is protected by a limited manufacturer’s warranty if purchased from an authorized retailer. The limited warranty covers manufacturing defects in your Simmons® mattress or foundation including faults in materials and workmanship.
